To those who donate or participate in the Annual Law Enforcement Opportunities Career Fair that funds our scholarships, your help truly makes a difference to students! Below is from Deputy Millerbernd on how receiving her scholarship from LEO helped her:

I want to tell you that I have not forgotten what that LEO scholarship meant to me. I plan on eventually giving back to the program once I am closer to my payoff date (which is soon!) so that another person can benefit from LEO. I know that without support from organizations like LEO that I would not be where I am today. Countless numbers of people have benefited from my help, knowledge, and services that I obtained by receiving a quality education that was funded in part by LEO. I never would have dreamed that I would be who I am today. I knew that I had the skills, but I just needed someone to believe in me and see my full potential. Thank you for giving me that chance!!

Best,

Ann M. Millerbernd
